Standard Heights

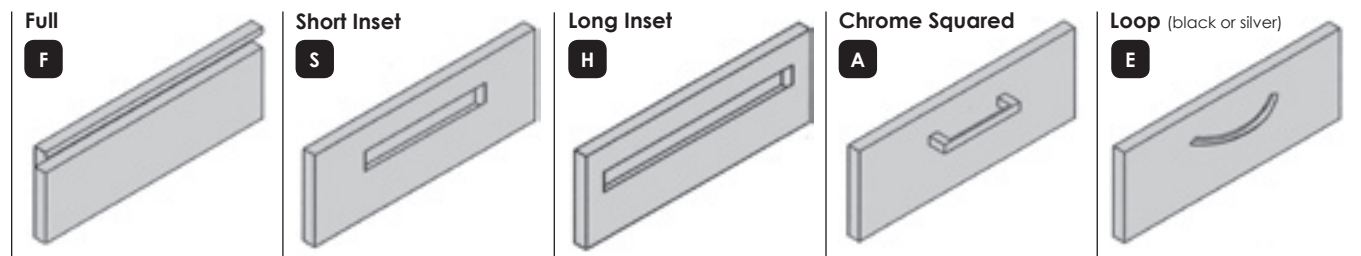

All Accura storage units are designed with standard heights in mind. Four high lateral files are the same height as four high bookcases. This allows you to cluster units together to create a clean aesthetic, and use shared laminate tops to build impromptu work areas.

Custom storage solutions

One of our strengths is that TableX is able to modify much of our standard product to meet your unique needs. Custom sizes, special lock requests, unusual configurations? We'll work hand-in-hand with you to come up with a solution that works for you.

Lockers

Since the introduction of the Accura product line, we have had many requests for custom lockers. These custom projects have been very successful, and only begin to show our versatility.
