

Metal pop-up units

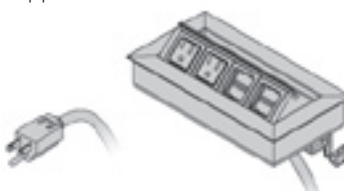

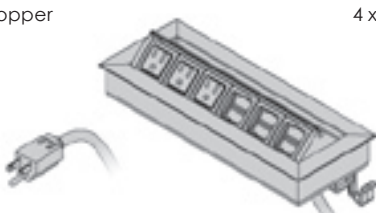

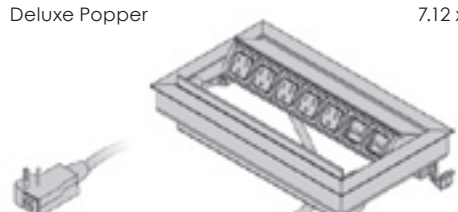

Each of our metal pop-up units feature a single touch door opening which closes when not in use. These units are available in a multitude of configurations balancing your need for conventional (15 amp/125 volt) power with USB power and data jacks.

Finishes: Choose between Black and Anodized Aluminum.

Cord: Choose between 72" and 120" length. All feature 15 amp/125 volt. Some units require two cords.

Cutout: You do not need to specify a grommet or add any upcharge to your table price. The cost of the cutout is included in the price of the unit.

Villa™ Daisylink™ System

The Villa Daisylink system is a 4 wire, 2 circuit hardwire system which allows for non-sequential plug and play use. Link up to 20 single kits or 10 double kits in a row using one of three power infeed options.

Some minor assembly is required, but holes are routed and predrilled for easy installation. An electrician is required when using the hardwire power infeed.

Grommets: Specify Lift (-L) or Flush (-F).

Finishes: Specify Black (-BL) or Silver (-SV).

Lift & Flush Units: You do not need to specify a grommet or add any upcharge to your table price. The cost of the cutout is included in the price of the unit on all -F and -L models.

Undermount Units: -U models are mounted with outlets facing downward and do not have grommets. If you desire a standard grommet to access these outlets, you must specify them. See page 157 for standard grommet information.

Infeeds: You must specify a power infeed unit for each row or grouping of tables. The number of kits that can be supported per row varies depending on the infeed specified.

Single Kit includes:

- 1 power base
- 1 FM cable
- 1 FF cable
- 4 cable clamps
- 1 grommet (on -L / -F models)

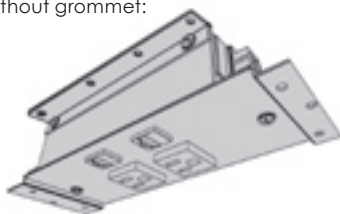

Double Kit includes:

- 2 power bases
- 1 FM cable
- 2 FF cable
- 6 cable clamps
- 2 grommets (on -L / -F models)

Villa™ Corded System

The Villa corded system

Some minor assembly is required, but holes are routed and predrilled for easy installation.

Grommets: Specify Lift (-L) or Flush (-F).

Finishes: Specify Black (-BL) or Silver (-SV).

Lift & Flush Units: You do not need to specify a grommet or add any upcharge to your table price. The cost of the cutout is included in the price of the unit on all -F and -L models.

Undermount Units: -U models are mounted with outlets facing downward and do not have grommets. If you desire a standard grommet to access these outlets, you must specify them. See page 157 for standard grommet informations.

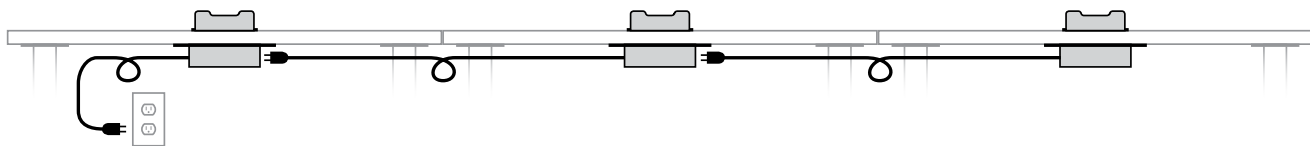

One per table: If specifying one per table, the unit is centered.

Two per table: If specifying two per table, consider using a 36" cord on the second unit to minimize your cord management.

media sharing

Marina™ System

The Marina is a collaborative video conferencing solution that combines power with the necessary audiovisual components required to foster collaborative meeting environments between teams working together on site or connecting those associates working remotely. Ideal for use with our new D-shaped conference tables.

All technology components are packed neatly into one single package and are simply "dropped in" from the table top, eliminating installation and set-up hassles.

Retractable cabling keeps all cords neat when not in use – simply push the button and they retract back inside the unit.

Simple Sharing Capabilities – share one screen with up to four users with the simple push of a "Show Me" button.

Some minor assembly is required, but holes are routed and predrilled for easy installation.

Finishes: Specify BL (-BL) or Silver (-SV).

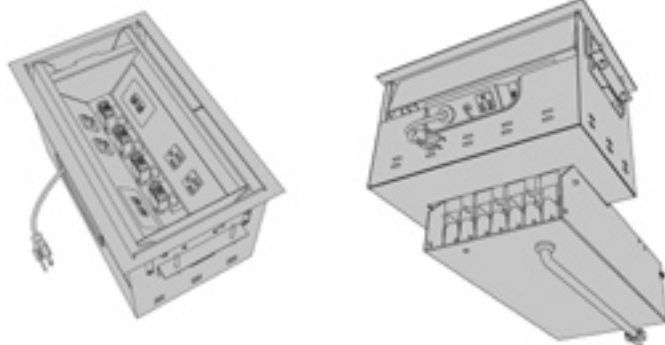

Cutout: You do not need to specify a grommet or add any upcharge to your table price. The cost of the cutout is included in the price of the unit.

Marina Includes:

- 4 retractable VGA cables
- 4 audio cables
- A/V box to switch from one VGA source to another
- 4 duplex power units
- 2 convenience receptacles
- 2 blank telecom plates for the ability to add capabilities
- 2 power cords, 72" length
