Care & Maintenance

Clean all surfaces with water-dampened soft cloth in the direction of the grain. Quickly buff dry.

Immediately remove any liquids that come in contact with the wood surfaces using a blotting action to absorb the liquid. Lift objects to move them. Never pull them across the finished surface.

Avoid exposing furniture to extreme heat and cold or to wide humidity variances. Avoid exposing furniture to strong sunlight. Exposure to sunlight over time will cause finish variation. Do not use soaps, commercial cleaners or harsh solvents as they will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breathe.

LOGO Custom Logo Tops

Make your laminate table top the focal point of any room by adding your logo in full color. Working with Wilsonart, we can add logos that utilize standard laminates into the background and integrate them into the logos themselves.

This process requires a custom quote, and does require an extended leadtime, but the final results are worth it.
