new product announcement: trig series

TableX is thrilled to provide our complete line of uniquely adaptable Trig series tables. Trig was developed out of a burgeoning desire for maximizing user flexibility within a workspace. Whether it's a robust rechargeable battery or our pneumatic-height option, Trig will more than satisfy your needs. This series offers simple and quick height adjustment, flip-top nesting and ease of mobility for private office, training, classroom and lab settings or a multi-purpose space.

the ultimate in versatility

Trig provides an innovative solution for user control and ergonomic comfort by offering options such as:

- **rechargeable battery height-adjustability** option with an overall height range of 29.5" – 55"
- **counterbalance pneumatic height-adjustability** option with an overall height range of 29.5" – 42"
- **15° tilt-lock 'drafting' angle** for a comfortable and ergonomic work-surface setting
- **mobile, flip-top nesting** provides freedom and ease of reconfiguration and storage within your space

pricing and availability

The Trig series is available now! Check out our 2025 pricelist at www.tablex.com/pricing for all table sizes, base styles, and table options. For quotes, please fill out the request form at www.tablex.com/get-a-quote/

We're excited for you to experience Trig with a personalized configuration to suit your space.

Sincerely,

Jim Skillman
