Care & Maintainence
Clean all surfaces with water-dampened soft cloth in the direction of the grain. Quickly buff dry.

Immediately remove any liquids that come in contact with the wood surfaces using a blotting action to absorb the liquid. Lift objects to move them. Never pull them across the finished surface.

Avoid exposing furniture to extreme heat and cold or to wide humidity variances. Avoid exposing furniture to strong sunlight. Exposure to sunlight over time will cause finish variation. Do not use soaps, commercial cleaners or harsh solvents as they will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breathe.

Pneumatic Height Adjustability

Pneumatic tables go from seated-to-standing height. Available on tables using single X-bases, these tables are easy to adjust. Simply squeeze the small handle underneath and gently move the top to your desired height. It's that easy.

Want to use Trig on the go? Just add 3" to each vertical measurement to account for the added height of locking casters.

To specify:

All available pneumatic models are priced in the following pages. They are denoted by the "BL" at the end of the model number.

Ratchet Height Adjustability

Ratchet height adjustability is available on most tables in the VertiGo line... T-bases, X-bases, and even disc bases. Simply lift the top near the base's mounting plate, and the ratchet clicks into place. With a range of 9.45" the ratchet works in thirteen increments of .78". To reset to the lowest position just lift past its highest point.

Want to use VertiGo on the go? Casters can be added, and the height of the base will be adjusted to ensure that the range of mobile tables is consistent with that of static tables.

To specify:
All available ratchet models are priced in the following pages. They are denoted by the "RA" at the end of the model number.

Example:
74TC2060T18**RA**-3P
20x60" **ratchet** table

Available on tables using single column disc or X-bases, these tables are easy to adjust. Simply squeeze the small handle underneath and gently move the top to your desired height. It's that easy.

Want to use VertiGo on the go? Simply add 2" to each vertical measurement to account for the added height of locking casters.

To specify:

Counterbalanced & Short Balanced Height Adjustable Disc & X-bases

Counterbalanced tables go from seated-to-standing height, while the short balanced goes from coffee-to-seated height. Available on tables using single column disc or X-bases, these tables are easy to adjust. Simply squeeze the small handle underneath and gently move the top to your desired height. It's that easy.

Want to use Surge on the go? Simply add 2" to each vertical measurement to account for the added height of locking casters.

To specify:
All available counterbalanced models are priced in the following pages. They are denoted by the "BL" or "BLS" (for short balanced) at the end of the model number.
